

Business Intelligence Specialist

Do you want to play a key role in shaping a modern BI platform in a fast-growing international company? Do you have a passion for data, precision, and delivering high-quality insights that drive business decisions? Are you motivated by structure, best practice, and a strong sense of responsibility? Then this might be your next career move.

The Role

As our new Business Intelligence Specialist, you will play a key role in building and maintaining a solid reporting foundation across our growing international organization. You'll be part of the finance team but work in close collaboration with IT and external BI consultants in implementing Microsoft Fabric and shaping our cloud-based BI architecture.

We are looking for a specialist who thrives in an environment that values accuracy, well-defined processes, and high data quality - and who is eager to help establish a single source of truth across our business.

Key Responsibilities

- Ensure the performance and reliability of our BI reports.
- Monitor and maintain data processes—from integration to front-end reporting.
- Validate data models and ensure consistency across all business areas.
- Maintain user administration and governance.
- Support colleagues with numbers, insight, and BI best practices.
- Proactively manage and monitor data pipelines and reporting structures.

Who You Are

You are a detail- and solution-orientated, structured, and quality-focused professional with a strong sense of responsibility. You take pride in delivering precise results and value clear procedures and defined expectations. You are reliable, with a high standard for accuracy and a natural ability to follow through.

To succeed in this role, we expect you to have:

- A solid background in data modeling, data warehousing, and BI reporting.
- Experience with SQL and understanding of relational databases.
- Experience working with Microsoft Power BI and/or Microsoft Fabric.
- Familiarity with Business Central, APIs, and integration platforms is a plus.
- A good understanding of finance and a collaborative mindset.

What We Offer

You will be part of a dynamic and growing company where your contribution matters. You will join a finance team of 11 dedicated professionals who support the business with reporting and insights across multiple markets.

At our new headquarters in Aarhus N, Denmark, you'll find a modern, social, and high-performing work environment. The Rains culture is living every day when we perform our jobs and are social with each other outside of our work. Our employees matter to us and therefore we offer numerous employee benefits, including a lovely canteen, staff discounts, fitness facilities, pension, and health insurance.

This is a full-time position reporting to the Business Controlling Manager.

Want to Join Us?

If this sounds like your kind of role, we would love to hear from you. Please submit your application and CV below. We evaluate applications continuously, so don't hesitate to apply today.

We welcome applicants from all backgrounds regardless of age, gender, religion, or ethnicity.

Only applications submitted through our e-recruitment system will be considered. By applying, you consent to the processing of your personal data in accordance with our Privacy Policy.

Join us on our journey—and help shape the future of Rains.

We look forward to hearing from you!
