Do you have a strong eye for detail and a structured approach to finance? At Rains, we are in the middle of an exciting growth journey, expanding our global footprint and strengthening our retail operations across markets.

Contact person:
Rebeca Gade

Job area:

The Role

As our Financial Controller, you will work with financial operations across our retail markets and holdings. You will be responsible for ensuring accurate reporting, supporting monthly closing processes, and contributing to day-to-day finance tasks related to our retail business. In close collaboration with teams across Finance, Retail, and Logistics, you will play a key role in maintaining structure, improving processes, and supporting business decisions through data and analysis.

Job location:
Aarhus

Key Responsibilities

Financial Reporting & Closing

- Support monthly closing and reporting across retail entities
- Prepare reconciliations, financial analyses, and period account documentation
- Ensure accurate and structured financial data for monthly and year-end reporting

Operations & Compliance

- Handle VAT reporting and compliance across European retail markets
- Support retail finance operations, including payroll and customs-related processes
- Ensure compliance with local regulations, internal controls, and finance procedures

Process & Business Support

- Improve and document finance processes with a focus on scalability and automation
- Collaborate closely with Retail HQ, stores, and cross-functional stakeholders across markets
- Support business decisions through financial insights, analysis, and operational follow-up

The Ideal Profile

A solid financial foundation combined with strong analytical skills is important in this role, along with a genuine curiosity about how numbers reflect the reality of the business. Working with data comes naturally to you — but just as important is the motivation to explain what it means and put it into perspective in a way that creates value for the organization.

We are looking for someone who is structured, detail-oriented, and enjoys working in a dynamic environment with many stakeholders.

We imagine you:

- Have a background in auditing or controlling
- Have experience with financial reporting and reconciliations
- Are comfortable working with data and financial systems
- Are structured and able to manage multiple tasks simultaneously
- Have a proactive and solution-oriented mindset
- Enjoy working cross-functionally and communicating with different stakeholders
- Are a team player with a positive and collaborative approach
- Are fluent in Danish (English is a plus)

The position is full-time with your workplace at our headquarters in **Lisbjerg, Aarhus N, Denmark**. You will report to the Finance Director.
